Kiowa & Cheyenne fight 1837

That picture in your calendar means that in 1837 after the fight with the Cheyenne in their fort, where we escaped - the Cheyenne did not know what had become of them they ~~looked~~ watched for them to come back until the middle of winter ~~when~~ till they got tired watching. The next spring they found out the Kiowa had wiped them all out,

They collected a big war party to get even - and went to look for Kiowa -

The Kiowa were gathered for a Sundance (Kado) at the Forks of the Wolf & Beaver about one days march on Wolf Creek from the junction - they attacked us right in our camp and were driven out - we fought backward & forward for three days - I did not see that - I was born this side & heard about it I heard they lost about 100 men on each side - they fought for three days then drew apart tired out and the Cheyenne went back to their village ~~on~~ away up north somewhere.
