II p 81

Omens

"While on the warpath if the man who has the pipe -(leader) or one of the 10 medicine keepers showed one of them happen to be in the war party) sees a fire while he is asleep we all turn back and go home because something unlucky will happen to us if we go on - that fire will burn us - or if he dreams of a ~~be~~ river very high - that is unlucky and we turn back - that river will drown us - if he dreams of an eagle lying dead and gets some of its feathers - then we will go on & strike our enemy & paint our faces black (be successful)"
